KH HYDRAULIC DOCK LEVELER

Overview

Characterised by its strength and safety. It's the fast, economical and easy way to bridge the gap between the building and the back of the truck bed. It has a hinged lip that allows the lip to adapt perfectly to the truck. It incorporates the use of hydraulics to raise and lower both the platform and lip. A single push button activates a hydraulic pump for operating both lip and hoist cylinders.

Features

Safety and Efficiency

- ✓ UL listed electrical components.
- ✓ Cylinder with velocity fuse.
- ✓ Safety stop and control device.
- ✓ Folding lip cylinder.
- ✓ Service range.
- ✓ Toe guards.
- ✓ IP64

Installation & Maintenance

- ✓ Accessible hydraulic system.

Reliability & Durability

- ✓ Reinforced structure & hinges.
- ✓ Anti-corrosion treatment.

Easy Use

- ✓ Single-button push activation.

Standard Capacity:

35.000 lbs
45.000 lbs
60.000 lbs
